Nutrition Internship

Fundación BAI's organizational vision is to be the catalyst for change, encouraging people to live healthy lives in which knowledge, prevention and treatment of HIV/AIDS replace fear, discrimination and prejudice. Our vision for all internship programs is to provide interns with practical, real-world professional experience in the track that best suits their interests and experience. Interns will work with Coordinators to develop and complete a unique project during their time with BAI. Cultural sensitivity, flexibility and personal initiative are essential traits for all internship tracks.

About the Internship

Interns with appropriate qualifications have an opportunity to work with BAI clients in a nutritional capacity. **Nutrition Interns** primarily provide nutrition counseling and information to clients. Interns can also work on specialized projects with CEMANUD, a government-funded clinic in Mérida that provides general outpatient nutritional care and counseling.

Preferred Skills

- ✓ Nutrition coursework (required)
- ✓ Nutrition counseling
- ✓ Meal planning
- ✓ Compassionate bedside manner
- ✓ Familiarity with chronic diseases
- ✓ Bilingual (Spanish and English proficiency)
- ✓ Creative problem-solving
- ✓ Research

Typical Tasks

- Provide nutrition counseling to BAI clients in conjunction with their medical and/or psychological appointments
- Develop meal plans tailored to the medicinal and nutritional needs of BAI clients
- Research current nutritional topics to write brief reports for the website and give bimonthly community presentations
- Research potential interactions between foods and medications for BAI clients
- Shadow nutritionists in the CEMANUD clinic and assist them with projects as needed

Visit www.fundacionbai.com to submit your application! Fundación BAI accepts interns year-round.
